

Interesting facts

The nine interesting facts below (A–I) include fourteen numbers. Write these numbers in figures, and then add them all together. The total will give you the number which is missing from the other interesting fact (J).

A		In the USA, twenty per cent of the beer drinkers drink eighty per cent of the beer.
B		An ant can move ten times its own weight.
C		A newly-born crocodile is about three times as long as its egg.
D		A flea can jump two hundred times the length of its own body.
E		Four out of five five-year-old children are afraid of dogs.
F		The average fifty -year-old man has seven hours' sleep each night.
G		It is nine times lighter during a full moon than during a half moon.
H		The Earth is about twenty-seven miles thicker at the equator than at the poles.
I		If you ask fifty people to name any colour, about thirty of them will say 'red'.
J		A woodpecker can peck _____ times per minute.
